## STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Norway people have used them and know how effective they are. Ask your neighbor! Here's a Norway case.

E. C. Libby, tax collector, Sanborn St. says: "I had a great deal of backache and it annoyed me to do anything. Not only this, but my head ached and I noticed little specks floating before my eyes and my sight blurred. I used different remedies but it was left to Doan's Kidney Pills to give me lasting results. I got Doan's Kidney Pills at the Stone's Drug Store. Since using Doan's I have had no return of the kidney complaint and naturally I place great confidence in this remedy." (Statement given June 6, 1916.)

On September 3, 1920 Mr. Libby said: "I haven't had occasion to use Doan's Kidney Pills or any other kidney medicine since being cured by Doan's in 1916. My faith in this remedy is just as strong to-day as when I first endorsed them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Libby had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co. Toledo, Ohio.

**FRYEBURG, Toll Bridge**

Those who attended the fair at North Waterford were Clement McAllister, Wallace Merrill, Herbert Harold and Mr. and Mrs. Grant McAllister. Annie Cummings and Nina and Nellie McAllister. Annie Cummings is working for Mrs. C. E. Allen at South Waterford.

The apple shop at the Harbor started Monday. A number from this vicinity are working there.

A terrific shower passed over this vicinity, Friday evening, with a heavy wind and rain.

J. C. Emery has been picking cranberries for Bert Bemis at Fryeburg Harbor. Nellie Richardson and daughter Nellie have returned to their home in Boston after spending a week with their cousin, Will Richardson.

**ALBANY** Mrs. Lewis' youngest son had the misfortune to break his arm the other day. Abel Andrews who has been in the O. M. G. Hospital for about six weeks, is gaining slowly, but is not able as yet to sit up any.

A large part of the Albany people attended the World's Fair where they have a chance to see a large crowd of people and see their old friends once a year. It was pronounced a good fair.

## WATCHES

When the horological experts of the greatest nations of five continents started out to find for their official use the most depend-

able railroad watch in the world, they tested in turn the most famous timepieces of Switzerland, France, England and America.

The watch they finally chose in preference to all others was a Waltham.

Waltham Railroad Watches are adjusted to heat and cold, five and six positions. Will pass the inspection of any railroad in the world.

Never a moment of real red-blooded enjoyment in work or rest; nothing but a continual state of the "blues." ## KILLED IN ACCIDENT

Arthur E. McNeil, the 17 years old son of Mr. and Mrs. Simon McNeil of Lewiston, died about 10.30 Sunday morning at Lovell as the result of an automobile accident late Saturday night. McNeil was returning from the Waterford fair in company with Charles Lawrence of Gorham on their way to Mr. Lawrence's home at Gorham. They were said by persons witnessing the accident to be traveling at a moderate rate of speed when failing to see a sharp turn in the road Mr. Lawrence drove the car over a steep embankment striking against a tree and throwing McNeil out. Lawrence was unhurt.

Persons traveling the road when the machine failed to make the turn say, when they went to the aid of the men in the car, they found young McNeil hanging out of the right doorway of the machine with only his foot in the car. He was rushed at once to the home of Dr. Allen, Lovell village, where he was attended by Dr. Allen and Dr. Luger of Cornish. Both physicians agreed that the youth died from serious injury to his kidneys and back.

Shortly after Mr. and Mrs. McNeil learned of the accident they were on their way to Lovell arriving a half-hour before he passed away, but in time to exchange a few words as the boy had not lost consciousness after he came to during the early hours of the morning. Aside from his father and mother, Arthur is survived by a brother, Eugene Edward, and a grandmother, Mrs. A. J. Hall of Lewiston.

Willard Threaded Rubber Insulation stays on the job month after month unaffected by acid and without a sign of splitting, cracking or perforation. It lasts as long as the battery plates and helps the battery give more miles of uninterrupted service per dollar.

You'll need a battery one of these days, so the time to get your battery information is right now. We'll be glad to show you a Threaded Rubber Battery inside and outside and tell you why it saves you money.

### GOV. BAXTER WARNS HUNTERS

The approach of the hunting season finds the woods of Maine unusually dry and the danger of forest fires is critical. I urge hunters and all others who go into the woods to cooperate with our Forest Service in doing everything to protect the valuable timberlands of the State. I hope that the opening of the hunting season will not be followed by an increase in the number of forest fires.

Under the laws of the State the Governor has authority to suspend the open season for hunting and he can prohibit the carrying of fire-arms in the forests of the State, but this authority should be used only in case of a real emergency. Our forests must be protected from fire and every precaution against fire must be taken by those who are about to enjoy the woods of Maine.

### TAXATION AND HIGH COST OF LIVING

Nearly every community in the wide world is intensely interested in the reduction of the heavy burden of taxation and the high cost of living.

As this is not a party question, we propose to give under this head weekly clippings from the newspapers and summaries of what is being done relative to these matters, as will attract the attention and interest of our readers.

The U. S. Dist. Atty. of New York has started the greatest movement against profiteers that has so far been undertaken in this country. Indictments have been found by the Grand Jury against nineteen or more companies or corporations and some two hundred individuals controlling products and prices in the building industry. A leading Boston Daily says: "These corporations have their headquarters in twenty states, and they have used their powers of price fixing and the elimination of competition so successfully that they now control 95 per cent of the industry and have been able to boost prices, within a few years from \$40. a ton to from \$300 to \$400."

Tax rate, city of Portland, Me., \$31.60 per \$1,000 valuation.

Tax rate, city of Lynn, Mass., \$28.40 per \$1,000 valuation.

Tax rate, city of Concord, N. H., \$28.20 per \$1,000 valuation.

"Thirty Nantucket, with \$3 cut from its tax rate, and a rate of only \$19.50, reaches this enviable position through a curiously fortunate growth, or recovery of long-lost prosperity. The valuation in Nantucket during the last decade has increased from \$4,176,884 to \$5,918,050, and this without a revaluation.

Back in the '40's Nantucket was a place of wealth. With the collapse of whaling, the town dwindled. Then its delights as a summer resort began to boom. In 1900, the town's value was \$4,176,884. Nantucketers expect to make enough in July and August to keep them the rest of the year."

### SOUTH ALBANY

Mr. and Mrs. Herman Bennett have moved onto the farm which they recently bought of John McAllister. We are glad to have young people come into the place and it will seem good to have the house kept open the coming winter instead of being closed as it was last winter.

Ernest Grover of North Waterford has bought the apples on Herman Holt's place on Dupdee and picked them last week.

There were grand electrical displays Wednesday night. The northern lights were seen in strange forms. Long parallel bars of white light crossed the heavens from east to west, gradually changing to curious spots and streamers. Several spots showed the brilliant hues of the rainbow. We also saw many shooting stars. Friday night we were visited by a furious wind and rain storm with fierce lightning and heavy thunder. The storm passed southeast of us but the wind from the southeast held it back for some time.

We were all grateful for the heavy rain-fall and thankful that no more damage was done. The whole top of one large apple tree at the foot of the hill just beyond Merritt Sawin's house was twisted off from the trunk and laid on the ground. It was perfectly sound and must have required a mighty wrench to have twisted off so large a tree.

# A NEW HUDSON

## SUPER-SIX

### \$1895

## A Greater Super-Six For Less Money

It is a handsomer car—It is easier to operate—  
It is improved in many mechanical features—  
It is more economical—It has the exclusive  
Super-Six features for increasing car life.

**We Are Showing It For the First Time**

The perfection that men said would make the Hudson Super-Six the finest automobile that is built is embraced in the new models we are now showing.

Six years with 111,000 cars now in use have shown how to free it from many of the annoyances regarded inevitable in all cars.

**Recall the Qualities For Which it is Known**

Each year has seen the emphasis of some new quality in the Hudson Super-Six. Six years ago, when new, it was the 72 per cent. greater horsepower without increase of motor size or sacrifice of simplicity that attracted.

Some thought such power would prove destructive, and so many famous tests were made to prove endurance.

Every one recalls how Hudson stock cars made new records for speed. Among them 1819 miles in 24 hours.

The run from San Francisco to New York and return in 10 days, 21 hours, remains unmatched though numerous attempts have since been made by others.

Only within the Hudson organization was such development possible. Its engineers, for the most part, the same personnel responsible for all previous Hudsons, have had unequalled opportunities.

Every car built in those years became a guide to future advancement. Every endurance test revealed new ways to improvement. Every model suggested a simpler, more beautiful car. The experience of every owner was an influence toward perfection.

It created new standards of beauty. Each body type is famous for good looks and the completeness of every detail.

The new Hudson Super-Six is the fulfillment of the promise of those 111,000 cars now in service.

**Prompt Deliveries To Early Buyers**

The Super-Six has always been the largest selling fine car. Think what must be the demand for this greatest of all Hudsons and at this price.

Early buyers will get first deliveries.

**The Greatest Value Hudson Ever Offered.**

"Sometimes I wonder how I lived through it all," she said. "I would have attacks of acute indigestion nearly every time I ate anything. Those terrible cramping pains and the distress, from gas and bloating were almost unbearable and I just thought there was no hope for me."

"But now I'm eating anything and I feel as strong and well as I ever felt in my life. I've gained back all the weight I lost and six pounds besides and I know from my experience what Tanlac will do. It's the best medicine in the world."

### LOVELL MAN SHOT

Neal Jones of Lovell, 22 years old, died at the hospital at Bridgton early Friday evening as result of injuries received when out hunting Thursday afternoon. His face was partially blown off and little hope was given as the result of his critical condition. He was brought from Lovell immediately following his being found by a posse Friday morning, search being started Thursday night when his failure to return alarmed members of his family. He was found unconscious in his boat in which he was lying face downward. He was clothed only in his undergarments, and this is unexplained. His shotgun was found at his side and it is thought that the weapon accidentally discharged. He left home Thursday afternoon in his boat on a small lake not far from the house to go duck shooting.

### HARRISON

#### "Oven Folks Day"

Thursday, Sept. 29th, at the Harrison house, was a delightful and busy day observed by the Oriental Commandery, No. 22, Knights Templar Oxford Associate and their ladies as "Oven Folks Day." A delicious shore dinner was served on the broad verandas and in the spacious dining hall at 1:30 and included fish chowder, boiled clams, lobsters, hot rolls, potatoes, chips, harlequin ice cream, lemon, custard and orange pies, olives, celery, tea and coffee.

The house and grounds were prettily decorated for the occasion with asters, banners, flags and ferns. Over 200 were present and during the afternoon the guests enjoyed motor boat rides on Long Lake, walks and sport of all kinds.

At four o'clock in the Grange Hall moving pictures were shown. Supper was served at 6:30 and consisted of clam stew, crab, egg and walnut salads, hot rolls, cold meats, whipped cream pies and assorted cakes.

Cook's orchestra of Bridgton furnished music for the day and dancing in the evening. Cards were also in order and a wonderful day enjoyed. The committee of Sir Knights were Charles Cobb, Walter P. Devy, E. J. Record, Fred S. Hanson, Alvah S. Brown, Vivian W. Hills, Everett Larabee, Leon H. Ayer, Homer Luck, M. W. Stearns, Alvin Merrill, George Eastman and Lester Tibbetts. Mrs. F. P. Freeman acted as hostess for the day.

### EAST OXFORD

#### Pratt Neighborhood

Many wells are dry in this vicinity. Nearly everyone has to get his drinking water at a distance. The rains of Monday afternoon and night helped some, but much more is needed here.

Mr. and Mrs. W. R. Harris and sons, Richard and Lawrence, of Mechanic Falls spent the day, Sunday, at B. M. Pratt's. Business was suspended here, Saturday, and everyone attended the Community fair at Weberville. Mr. and Mrs. F. A. Paine and children visited Mrs. Paine's sister, Annie Lane, at Webster, recently. Stanley Pratt is helping H. M. Pratt pick apples. Charles Poland is also at work there.

### NORTH WATERFORD

Kenneth Tibbetts from Somerville, Mass., is visiting with his wife and child, at Burnham Rice's.

Raymond Knight is wiring the house of E. B. Hersey & Son. He has just finished at M. F. Knight's and is engaged to do a number of other houses. He is a very careful workman and knows his business well.

The Circle could not have fed at our fair between 700 and 800 people for dinners, breakfast and suppers if the townspeople had not helped us so gladly and willingly. They appreciate the work of those who wait on tables, cooked and gave food and those who helped in the vestry for all that they did to help make the World's Fair a success.

Mrs. Pearl Weymouth with baby boy, has come home from Norway. They are both doing nicely.

A consignment of lumber was recently shipped from a western state to Chicago, valued at \$300. The freight charges are said to have been \$800. Think!

The only trouble with industry is that it needs to be a little more industrious. The stingiest people are liberal with one thing: giving advice.

A heavy shower, accompanied by vivid lightning passed over this section early Friday evening. The downpour followed a day with lowering skies and sultry conditions for September. Coming from the south the rain was warm and left the same mild conditions after it passed on. People caught in automobiles on the highway during the storm said it was a regular wall of water ahead. Locally the shower was the only real one the past summer.

Frank Woods of Auburn has been in town several days visiting his mother, Mrs. Sarah T. Woods.

Mervin (Cappy) Smith is spending a few weeks in Bar Harbor with relatives while recovering from a severe cold.

Mrs. Freeman C. Smith was in Portland and Saturday on business.

No repairs were carried, and George Ames, a passenger, walked back to Norway for the necessary material. After a long wait, the tire was repaired and everybody reached home with no other accident.

Frank L. Starbird died at his home on Barrows street, South Paris, Thursday noon, as the result of an internal cancer, from which he had suffered for some time. Mr. and Mrs. Starbird moved from Norway to their new home early in the summer, after selling the Cummings lively stable and boarding house property which they had carried on for several years.

Mr. Starbird was born in Paris, August 6, 1851, the son of Stephen R. and Abigail (Andrews) Starbird. He married Cassie L. McKinnis, who survives him, as do three children, Frank Leslie Starbird, Jr., and H. Walter Starbird, both of South Paris, and Florence May, wife of Fred Faneuf of Norway. There are also six grandsons and two granddaughters. He is also survived by two brothers, Winfield S. Starbird of South Paris and Augustine Berry of Auburn, and two sisters, Mrs. Alice Lewis of Norway and Mrs. Ida Dudley of Mt. Vernon.

Mr. Starbird was a member of Deering Memorial Methodist Church, Paris Lodge, F. and M. L. Hamlin Lodge, P. O. L., and Paris Grange, all of South Paris. He was of a social disposition and as a reader of some note, had often assisted in the entertainment at gatherings in this vicinity. The deceased had gained a state wide reputation as an expert checker player, and had been an enthusiastic baseball fan during the summer.

A prayer service was held at his late residence at 1 o'clock Sunday, and the funeral was held at Deering Memorial Church at 1:30, attended by Rev. Mr. McGlaughlin.

## SOUTH PARIS

Boys' and Girls' Club Annual Contest

The first annual contest of boys' and girls' clubs in Oxford County was held at the South Paris Grange Hall, Friday and Saturday. County Agent R. H. Lovejoy had general charge and was assisted by Lester H. Shibles, and Alfreda Ellis, state leader of boys' and girls' club work in Maine. As Van Denkerchoven of Bethel, the Farm Bureau Club project leader was also busy in the arrangement of details.

The exhibits by 114 members were interesting and instructive and covered tables extending the length of the hall on both sides, across one end in the center. The articles were arranged by clubs and included jars of fruits and vegetables, loaves of bread and a beautiful array of needlework. The vegetables were shown by the Norway Seniors, Junior and Rufford Juniors, the canned products, by the Bethel Juniors and Rumford Juniors; the bread, by the Priscilla Club and the Happy Helpers of South Paris; the garments and other articles, of needlework, by the South Paris Seniors, South Paris Juniors, Bethel Juniors, and Buckfield Juniors.

Citizens responded to make the gathering a success, and encourage all directly concerned with the various clubs. The pastors of the Methodist, Baptist and Congregational Churches solicited places of entertainment for the visiting club members and their local leaders. The free use of the vestry of the Universalist church was given for the club banquet the food for which was contributed by women of South Paris and Norway, and served by the women of the Universalist parish. Paris Grange loaned its hall for the exhibits and the meetings. The Farm Bureau took care of incidental items of cost and the South Paris Savings Bank contributed \$100 for distribution as prizes. Leslie L. Mason of the Mason Fig. Co. made a donation of 50 centennial half dollars for additional prizes. Mr. Mason is much interested in the progress of young people and vocational training.

Friday forenoon was devoted to registration and assigning of quarters in South Paris homes. The first sessions of the clubs came in the afternoon, the Farm Bureau county project leader presiding. The address of welcome was by Walter L. Gray of South Paris.

Henry Plummer, South Paris club member, responded. Mrs. Lovejoy's club gave a fine presentation of a club play, "Catching Club Cheer," which embodied a sewing demonstration. Club songs and cheers enlivened the occasion. Next followed a judging contest, in which the participants judged the relative merits of garments, and potatoes, and identified beans, grains, cereals, stitches, and kinds of cloth.

The last two hours of daylight were devoted to athletic sports at the fair grounds.

State Leader Shibles was toastmaster following the banquet in the Universalist vestry. Brief addresses were given by Superintendent Russell of Bethel, who is also local club leader; Alfreda Ellis, as assistant state club leader; Rev. C. G. Miller, pastor of the Universalist church; Mrs. Colton of Oxford and Frances Plumstead of Hebron local club leaders.

At 6:45 the club members were transported to Norway, where they were given free admission to the Theatre by its proprietor, W. E. DeCroteau.

Saturday morning the prizes and the centennial half-dollars were distributed and stories read.

## MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife came to take Lydia E. Pinkham's Vegetable Compound and I took 23 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the best thing I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Avenue, Chicago, Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it, but many women have escaped operations by the timely use of this old-fashioned root and herb medicine.

Arm Mangled in Planer

Mrs. Laura Paradis, employed in the saw-mill department of the Mason Manufacturing Co. had her left hand caught in the knives of a planer, Thursday, necessitating the amputation of one finger.

Her hand and arm were somewhat mangled for a little distance above her wrist. She was supposed to take stock away from the back of the machine, but in the absence of the man who fed the planer, was feeding in a few sticks when the accident occurred. Her screams caused the workmen around her and the machine was stopped. Dr. D. M. Stewart was summoned and dressed her wounds.

## Famous World's Fair

Biggest Crowd North Waterford World's Fair Ever Saw. Perfect Weather and a Grand Time

North Waterford was overrun with visitors Saturday when the last day of the well known exhibition in the village square was staged. Perfect weather was an incentive for everybody in the section to visit the time honored institution, bringing together the largest crowd ever known to be assembled at the World's Fair.

Friday being the first day, was used as a time for "setting up" for many of the showmen and victualers jumped in on the "Fryburg" show. A good number of sight-seers drifted into town early and watched preparations for the big drive on Saturday.

Business started at a lively pace early Saturday forenoon and the show was under headway before 9 A. M. Crowds came in automobiles, trucks, in carriages and on bicycles. Many walked from considerable distances, trusting in luck for a lift. Fakir row was alive with humanity and the highways crowded with vehicles long before the sun reached the zenith. The crowd kept pouring in until it seemed the square could hold no more pleasure seekers. It was a restless throng surging like a river through the avenues dividing the tents and booths, or wending their way up the hill to the grange hall where the customary exhibits were in place. Dancing in the grange hall and the Old Fellows' Hall kept the crowd moving lively up the highway from the square. This condition was kept up until nearly dusk Saturday afternoon.

Many estimate at least 2,000 autos were parked about the grounds or in door yards and about the square. By the noon hour, only a careful driver could safely pick out the route through a narrow lane of cars, which packed the road sides solid from the lower road to a point beyond the I. O. O. F. Hall. Another solid block of "lizzies" and other machines jammed the roads leading past the Congregational church. It was very full and especially when the majority wished to leave the square about the same time in the afternoon. The congestion was serious at the corner near the former Mosher tavern. It was a mixture of big cars and little cars, the poor "lizzies" ready to scrap and the costly coupe all mixed with horse drawn vehicles and pedestrians. Deputy sheriff Harry O. Stinson of Norway happened along and took charge of the situation. He was assisted by W. H. Kilgore of Andover, and both served as traffic cops nearly two hours while the long line of vehicles cleared this important corner. After the snarl was untangled, and the drivers got the habit of forgetting their hurry, everything went smoothly as a clock.

So far as known, no accidents have been reported, although one car came out of the jam with the rear mud guards crumpled. Several cars had hard bumps but escaped everything but dents. Saturday was the time for family gatherings and an annual get-together. Everybody has planned in years back to meet friends on this historic spot. This year was no exception and the bunch was certainly the largest family gathered in the square on vacant spots with lunch baskets as in the good old days and enjoyed the noon hour, far away from the frankforts reeking with biting mustard and fried onions.

### Midway

Never before have so many fakirs gathered in tents and booths at this fair. Chances to spend money at every turn, with the baby doll games and merry-go-round the big coin getters. Of course the whirling machine, much improved and revised, was the center of attraction. This year "Chief" Littlefield and "Si" Hatch pulled off the stunt of carrying passengers. Not long ago Linwood and Bert Flint operated the outfit, but decided to let others in on a good thing and sold out. The organ played the same tunes as in days of yore. Some of the young and old forgot the solemn tunes and enjoyed the wooden horses to the limit.

Several side shows catered to the curious. Happy Emma, the handsome fat girl, was showing under the same canvas with a Giant Python. Twin calves jumped at the hips were on exhibition in another small tent. According to the pictorial banner, they had "grewed" together. A rooster with three legs was a feature in another show that failed to attract heavy patronage.

One athletic show within sidewalks brought Mike Nadie and Homer Truman both of Norway, into the limelight. These well known wrestlers accepted all chances on the mat and the show was largely attended.

Several baby doll outfits kept crowds before them the entire day. Trying something for nothing proved a delicious pastime with hundreds tumbling over all obstacles for tickets. Knock down the cats, cover the disk, hoop the prizes, and a dozen other games of skill were set out in a tempting row. The high striker and bowling alley were favorite sports. Ring a duck for prizes was good sport although geese replaced live birds used at earlier fairs.

Gluttony was a strong temptation with hot frankforts, sandwiches, fruit, popcorn, cold soft drinks and something called new cider, supposed to be pressed from the apple while you wait.

"Bridge of Bridgton" sold popcorn. Will Twitchell of Oxford operated two or more stands where a quantity of bananas, grapes, confectionery and other good things were sold. Will Rice and Jimmy Weston of Auburn carried lunches. Frankforts and soft drinks. Harry Isaacson of Norway had an auto truck loaded with clothing and general furnishings. Several other outfits of this kind were also scattered about the grounds. Sample shoes and slightly damaged goods from the Carroll, Jellerson Co. were sold by Mr. and Mrs. Jasper Haggerty and Miss Mills.

Mr. and Mrs. John Dorsey of Worcester, Mass., handled snakes and wild animals. Dorsey is an authority on southern reptiles and incidentally a smart salesman. His stock of exhibits included a Texas bull snake, a Texas blue, a Texas whip snake, and several diamond rattlers. A line of talk while fondling the reptiles held the audience until a supply of medicine could be released in the crowd. He has been at the Maine fairs the past twenty-five years and has a wide acquaintance.

Indian fortune tellers secured good business from the ever present inquisitive delvers into the future. The patrons appeared satisfied with the results of the interviews as one remarked, "He told me some awfully nice things." Danforth, the picture man of Mechanic Falls, snapped ferretypes.

### Ladies' Circle Dinners

Real old fashioned dinners were served in the vestry of the Congregational church for the Ladies' Circle. The president, Mrs. Ella Charles and vice presidents, Mrs. Carrie Hersey and Mrs. Charles Saunders were assisted by all the ladies in the circle to make the dinners complete in every detail. Nothing had been over-looked and the tables just groaned under the load of good things provided by the well known cooks of Waterford.

The patronage was large with a long waiting list between 12 and 1 o'clock. Tickets were handled by Addison Millett, Charles P. Saunders and C. A. Hersey. Herman Holt seated the guests at the tables and a score of waitresses were ever present when anything was wanted in the dining hall.

### Live Stock Exhibit

The cattle were shown along the highway west of the church. Charles Learned had Jersey cows, one the best three-year-old and another was a fine specimen of a five-year-old dairy cow. George H. Rice also showed a Jersey cow. His small herd of Holsteins were attractive. E. B. Hersey & Son had quite a large exhibit from their farm. There were two-year-old steers, a registered Jersey bull, "Beech Hill King"; registered shorthorn bull "Fred"; ewe lambs, a registered buck, two years old, and a buck lamb.

Charles Learned showed a yoke of four-year-old oxen, and heifer calves. C. P. Saunders showed two-year-old steers were beauties. W. B. Cummings, Albany, had a grade Hereford bull, thirteen months old, which attracted favorable comment. R. McKen showed a bull. Llewellyn Millett, Waterford, had a yoke of heavy oxen. A. R. Millett, Waterford, showed oxen, as did P. L. Pike of Waterford.

### Poultry

This exhibition was arranged near the entrance of the grange hall and included several coops of birds and rabbits. The exhibitors were Mrs. Clara Grover, North Waterford, white wyandottes, mottled anconas, and Duflet's Giant rabbits. Leroy H. Hersey had bantam chickens. Alfred Hersey showed a duck and drake. Lillian F. Millett had a pen of Belgian hares and Mrs. L. R. Mills, North Waterford, exhibited Bronze Turkeys.

### Pulling Matches

Draft horses were among the missing this year. The pair owned by Thomas Westfield of West Bethel were the only contestants in the free-for-all. They hooked onto a sizeable load and made better than 100 feet, winning first money. The pulling of oxen and steers created excitement and brought together a large array of spectators. Good natured chaffing was indulged in and the teamsters were forced to take hints of advice from the cosmopolitan crowd. Following are the results:

Oxen 6 ft. 10 in. Class

### Bull Team Exhibition

The famous "bull team" owned by C. A. Hersey gave an exhibition of their haul and a race was passed to win a plate business. This odd combination is a pair of shorthorn bulls broke to a yoke and able to handle heavy loads. A load of stone estimated to weigh 4400 pounds was hauled nearly a hundred feet in three pulls with Dana Hall of Bethel, chief of the haul team.

The bulls are named, received a big hand at their performance.

## NORWAY AND VICINITY

Midsummer Days in Casco Bay

Casco Bay with its islands, numbering upwards of three hundred, is one of the most beautiful regions of the North American Atlantic Coast, and no harbor is better or safer for shipping than that of Portland, the metropolis of Maine. The city itself is splendidly situated on high ground and its beautiful shade trees have given it the name of "Forest City."

From Eastern Promenade 160 feet above the sea the harbor with its shipping and fortifications and Portland Headlight at the border of the open ocean can be seen. From the observatory located on Munjoy Hill a wide stretch of the open sea may be seen in a clear day. There is no finer view of a city and harbor and back into the country towards the White Mts. that can be seen from the top of the Fidelity Trust Co.'s building in Monument Square. At the other end of the city is Western Promenade, 175 feet high. On this hill are located the Maine General and the Eye and Ear Infirmary Hospitals, and reservoir which supplies the city and several islands with water from Lake Sebago.

The scene at night, from the old private landing of the Island Association is grand and beautiful. With the gentle ripple of the waves on the shore from the moaning tide it is the time for sentiment. Down on the pier as twilight fades, and twinkling stars come out in the sky; With flashing shore lights dispelling the shades; That is the place where my dreams go by. Is there never a star at daylight's end, Or a wave that ripples the sea, A memory hid in the heart of a friend, To whisper a message to me? Hail! 'Tis a rhapsody of evening songs, A music, soft and low; It carries a dream, on shadowy wings, Of a happier long ago.

One evening we saw the finest scene of all the summer on the island. The air was clear and balmy. The tide was rising and the waves were softly rolling on the shore. The twelve or more large street lights on Eastern Promenade had simultaneously flashed out of the darkness—a sight always worth seeing—the smaller lights on Furbur's Bridge were shining, the long South Portland bridge was brilliantly illuminated; around the shore in view was a half circle of shining glory; two large red flash lights, over towards Cape Elizabeth added to the glittering scene; the Boston boat, with its double deck of lights was slowly moving out of the harbor while the crescent shaped moon, resting but a faint light, only a short distance above Munjoy Hill, set off with great effect the artificial lights of which it seemed to be a part. The scene was beautiful beyond description, and will long remain in memory.

The most splendid view in the daytime from Great Diamond is from the embankment of Fort McKinley, on the east end of the island. Between Peak's and Long Island is an unobstructed stretch of water to the open ocean. Down the bay one can see in the far distance the lower end of Long Island, Little and Big Chebeague. A number of motor boats going or returning from the fishing grounds are usually seen in these waters, while occasionally a government boat, some sailing craft, or a business steamer passes. Often away toward the horizon, a big sailing vessel is seen. There is no prettier sight than a vessel moving on the sea with all sails set.

The weather was exceptionally fine during all the time we were at our island cottage. Earlier in the season, when we were at home, there was a period of foggy days that the steamer whistles and mournful bell notes must have made life anything but pleasant. Two or three showers passed around us. One night it began to rain, but the next day at ten o'clock it had cleared off and the sun was out. The weather was everything that could be desired and we gained in health and strength. The memories of those dreary days in the hospital last winter begin to fade, but the sympathy and sincere regards of kind friends will ever remain, a substantial reality.

From Its Dreadful Pains and Aches, Stiffness, Soreness—

Is properly to be sought in a good blood medicine, because authorities say rheumatism is a blood disease; acid has entered the blood, settling in the muscles and joints. That's what makes the sharp, sudden, shot-like pains, causing you to jump and cringe in agony.

Hood's Sarsaparilla comprises remedies that every physician prescribes for rheumatism, combined with other blood-purifying, tonic and strength-building ingredients in a formula vastly superior in make-up and in curative power. It does give positive relief. Thousands say so. So will you. For a fine laxative take Hood's Pills.

**NEW FALL FASHIONS**

It is believed that the displays will merit a very general interest, and it is hoped that none will remain away because a purchase is not now contemplated.

The fashions as portrayed in the beautiful new fabrics, the Apparel Ready-to-Wear, etc., will prove interesting and helpful when a purchase becomes necessary.

It is our aim and object to bring the service of this Store to the highest possible standard of usefulness to this and the surrounding communities, and this we believe will be emphasized and amply verified in the displays in all departments.

**THERE ARE SO MANY NEW GOODS TO  
WRITE YOU ABOUT**

and that we would like to have you see, that we realize at once that to do so in detail would be most inadvisable, as your time as well as ours is too valuable for "long stories," but we invite you to come and see our usual large stock of merchandise. Many new arrivals are contributing very much to the displays.

Not only is the merchandise of this store of well known best qualities at the prices asked, but the style trend is so closely followed as to make the displays most comprehensive and uncommonly valuable, we believe, from a style standpoint.
